Patient-Centered Medical Home

Union Community Care is a nationally recognized Patient-Centered Medical Home because of our inclusive approach to providing healthcare services that reflect the cultures, values, and needs of the individuals we serve. Our progressive care teams care deeply for their patients and bring unique experiences and diverse cultural backgrounds to our communities.

Union Team Care

Our Care Teams were designed to partner with patients to meet their unique healthcare needs by integrating medical care, dental care, behavioral health, and support services. The purpose of a Care Team is to know and understand the patient's health history, focus on their care, and strengthen their well-being. This means that a whole team is caring for the whole patient, answering their questions, and connecting them to resources.

Mobile Health

The Mobile Care Team can provide a wide range of primary and preventive healthcare, including:
